CO2 - ASSESSMENT 2
SOCIAL ENGINEERING SIMULATION

Course Faculty : Dr.K.Anbazhagan

Course Name : Ethical Hacking

Course Code : ITA1405

Slot : Slot A

Total Marks : 100

CO2 : Foot printing Tools: Conducting Competitive Intelligence, DNS Zone Transfers, Introduction to Social Engineering: Social Engineering Attacks and Countermeasures. (BT3)

Code of Conduct:

I **PRADEEPA.T** (Name / Reg No) certify that this submission is my original work and that I have adhered to the guidelines specified for this assessment. I understand that any violation of academic integrity rules will result in disciplinary action.

Introduction

This report applies passive footprinting to www.cloudflare.com using only Google search operators such as site:, filetype:, intitle: and inurl:. It records PDF, PPT and DOC files, login pages, admin pages, contact pages and privacy policies that are publicly visible, without logging in to or probing any system. It then analyses how an attacker could use this information for social engineering attacks such as phishing, vishing and pretexting, and suggests countermeasures.

With cloudflare.com in place of company.com, these are the queries to type into Google:

No.	Category	Google query
1	PDF files	site:cloudflare.com filetype:pdf
2	PPT files	site:cloudflare.com filetype:ppt OR filetype:pptx
3	DOC files	site:cloudflare.com filetype:doc OR filetype:docx
4	Login pages	site:cloudflare.com intitle:login
5	Admin pages	site:cloudflare.com inurl:admin
6	Contact page	site:cloudflare.com "contact"
7	Privacy policy	site:cloudflare.com "privacy policy"

Findings

Counts are the number of links recorded from the search results for each query.

Particular	Count	List links one by one
PDF files	3	1. https://cf-assets.www.cloudflare.com/slt3lc6tev37/42Se4YQCT98hUiXgOh0sth/c72053cd6390d95f0f9e9e256504cf74/Athenian_Cloudflare_total_product_list_2023.pdf

RUBRICS

Criteria	Weightage (%)	Level 4 (Exemplary)	Level 3 (Proficient)	Level 2 (Developing)	Level 1 (Beginning)
Search Technique Application	**25%**	Correctly applies all assigned search techniques and systematically investigates the assigned organization.	Applies most search techniques correctly with minor errors.	Applies some search techniques but requires guidance.	Unable to apply the required search techniques.
Information Identification and Collection	**25%**	Accurately identifies and records relevant documents, login pages, admin pages, contact pages, and privacy-policy information.	Identifies most relevant information with minor omissions.	Identifies limited information and misses several relevant findings.	Fails to identify meaningful information.
Security and Social Engineering Analysis	**30%**	Excellent analysis of how publicly available information could support social-engineering attacks and demonstrates strong security awareness.	Correctly identifies most security implications and potential social-engineering risks.	Identifies some risks but provides limited technical interpretation.	Fails to recognize significant social-engineering or information-exposure risks.
Documentation and Evidence	**20%**	Provides complete counts, links, lists, and well-organized evidence with clear technical documentation.	Provides adequate documentation with minor omissions.	Documentation is incomplete or lacks organization.	Documentation is poorly presented, incomplete, or lacks evidence.
